

The Business Model and Brand Creation,

Brand Name - Dietly(tagline : supporting your fitness goals daily.) : providing diet foods daily to gym goers and fitness enthusiasts on a prepaid monthly subscription basis.

we have different packages,

basic, standard and premium.

1299rs Basic Gets : 1) Supply of 1 Diet Food daily

2) Meal will be delivered on common fixed time slot

3) Common Diet Plan for weight loss/gain.

1500rs Standard Gets : 1) Supply of Diet food with Change of food 1 times

2) customized food delivery time selection according to user.

3) customized diet plan according to user

4) monthly 2 time free delivery for random individual order other than this monthly subscription of food.

(for the 4th point : we will serve to the people who wants to order food when required other than regular time food like if im providing them sprouts daily and if they get hungry at afternoon or evening so they can order other foods from my site/app like Swiggy zomato serves , i will do the same i will be launching my app and website also so if already subscribed user orders anything then they'll get this benefit of 2 times free delivery per month) at first I won't make site or app but I still can provide this service as it doesn't need site or app for order they can call or msg me for temporary period of time.

3000rs onwards, premium gets : 1) daily food on their selected time,

2) customized diet plan according to their goal

3) food will be delivered according to their diet plan

4) 2 times free delivery on individual random orders

5) fitness assistance, we'll deliver everything related to fitness required when they need like protein powder (it'll be paid by them at delivery or prepaid on order placement)

6) Full care will be taken from morning breakfast to night dinner all meals will be covered

(price of this package is not fixed because it'll be according to customer need and foods they select so I'll have to draw quotation everytime for every interested user. but still it'll be near about 3000rs and may get higher as per food/service requirements).

This business model can be implemented in various sectors like corporates, delivering bulk orders daily to offices on their lunch time,

medical sector : doctors, patients for healthy eating. these are the sectors we can focus.

but major focus should be on gym and sectors.

Ways To Sell :

Daily Supply with Prepaid Subscription

Tie-Up with Gyms (for Bulk orders via Gym commission basis.)

Swiggy, Zomato

Collab with Daily Needs Shops and Dairies.
